Fiscal Year 2017-18

Scanning and Electronic Filing

Project Description:

Scanner and software system that is approved by the Arizona State Library, Archives, and Public Records. Scan paper documents into electronic format that all employees (monitored) can search and access at their own workstations. Allow Town to scan old permanent documents that can then be transferred to the Arizona State Library, Archives, and Public Records secure document repository.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Scanner & Software	\$8,000		\$8,000						
Funding Sources									
General Fund									
10-44-710	\$8,000		\$8,000						

Brief explanation of how the estimate was created: In-house estimate based on conversations with peers of these types of products used by their agencies. Also expect an annual license(s) and support fee.

New Roof MPC Retail Building

Project Description:

Repair or replace roof on MPC Retail Building.

DRA

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Contractor	\$40,000		\$40,000						
Funding Sources									
10-41-620	\$40,000		\$40,000						

Brief explanation of how the estimate was created:

Light Poles for Retail District Parking

Project Description:

6 light poles and lights for retail districts parking lot on existing platforms.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Materials	\$6,400		\$6,400						
Labor	\$2,800		\$2,800						
Funding Sources									
General Fund									
10-58-360	\$6,400		\$6,400						
10-58-101-126	\$2,800		\$2,800						

Brief explanation of how the estimate was created: Internet quote.

Public Works Fleet Building Heat

Project Description:

Replace high maintenance pellet heaters with high efficient propane radiant heaters.

Estimate

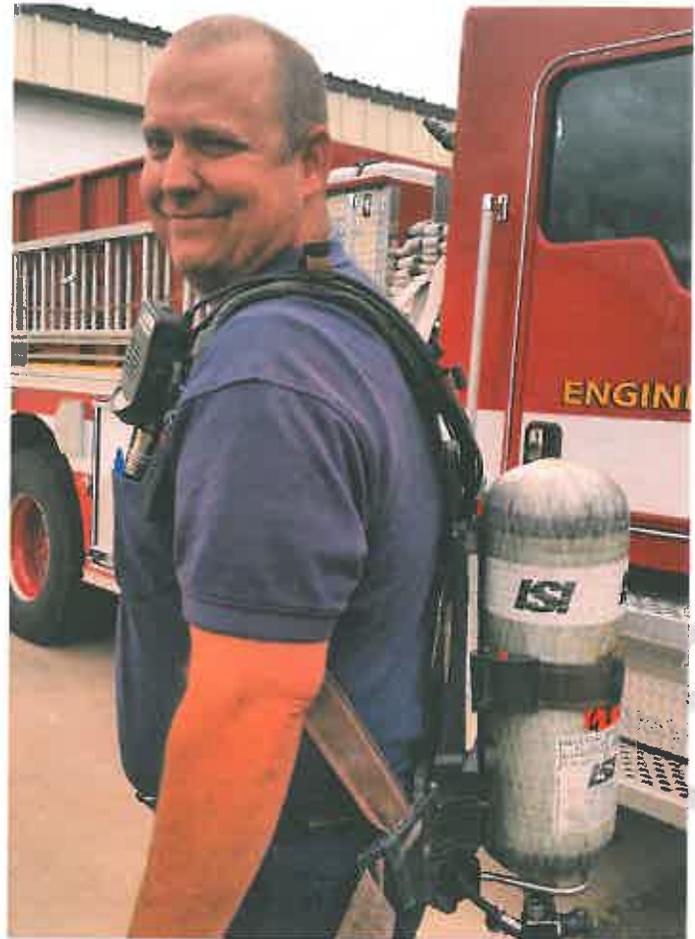

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Contractor	\$6,100		\$6,100						
Funding Sources									
HURF									
10-58-710	\$6,100		\$6,100						

Brief explanation of how the estimate was created: Estimate given by Owens Propane.

SCBA Equipment Replacement

Project Description:

16 SCBA packs with spare bottles and 25 masks to replace existing SCBA packs considered obsolete by NFPA standards. In five years the SCBA packs will be considered obsolete and in need of replacement. This is going to be a multi-phase project as we receive grants.

Estimate

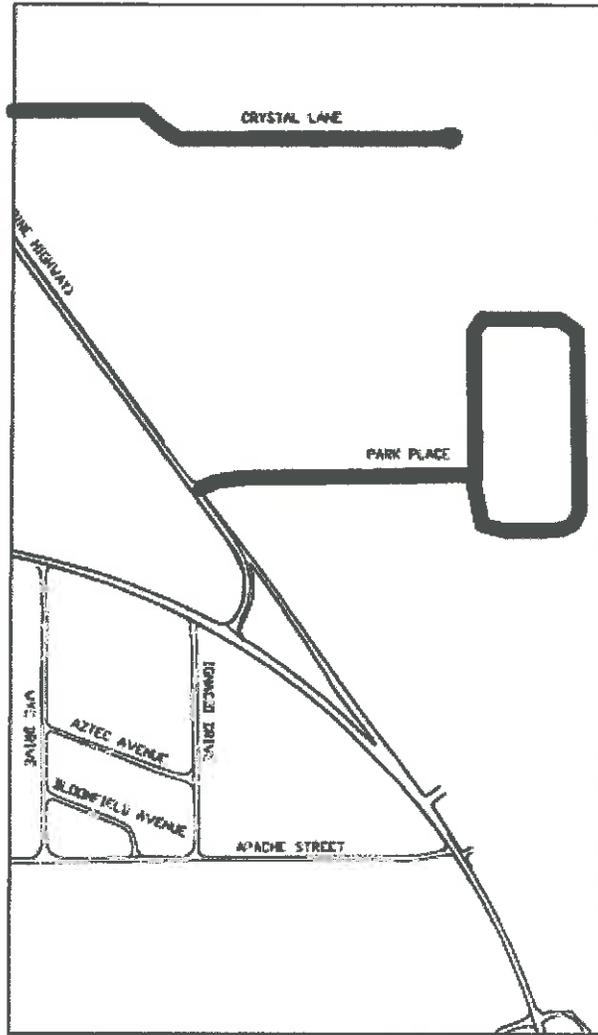

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Equipment	\$125,000		\$70,000		\$17,445			\$37,555	
Funding Sources									
General/Grants									
10-51-731	\$125,000		\$70,000		\$17,445			\$37,555	

Brief explanation of how the estimate was created: Price quote was obtained from the supplier. Quote #4420 FDC Products.

Chip Seal Park Place

Project Description:

Single chip seal Park Place, Crystal Ln., and Rec Center Loop.

Estimate

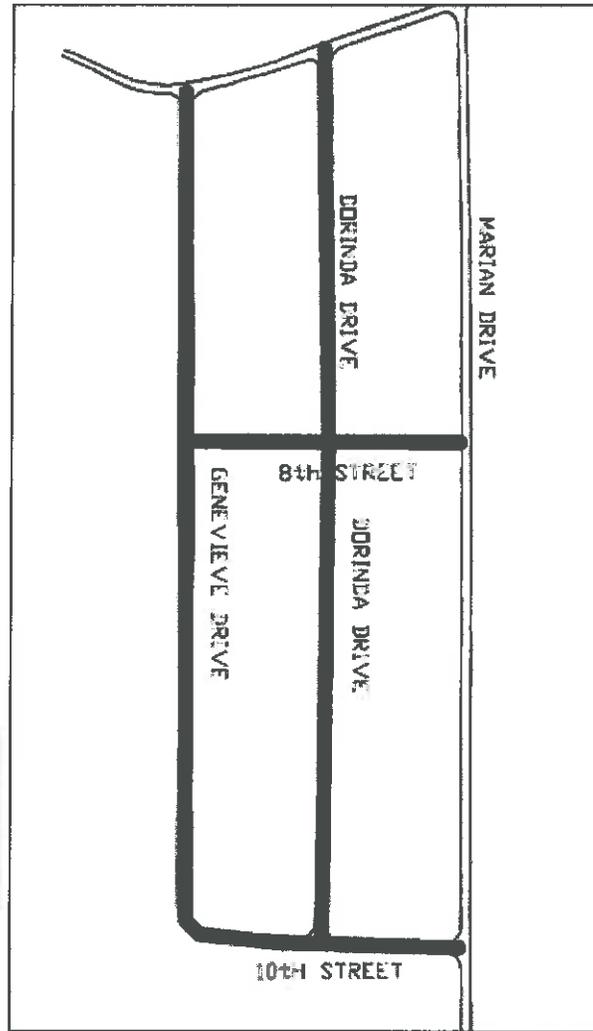

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Materials	\$51,000		\$51,000						
Labor	\$3,750		\$3,750						
Funding Sources									
HURF									
30-60-370	\$51,000		\$51,000						
30-60-101-126	\$3,750		\$3,750						

Brief explanation of how the estimate was created: Past cost of materials and labor.

Chip Seal Udall Estates

Project Description:

Single chip seal Dorinda, Genevieve, 10th St., and 8th St.

Estimate

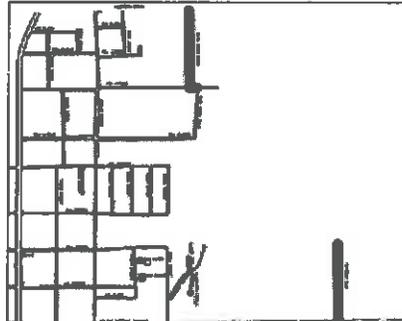

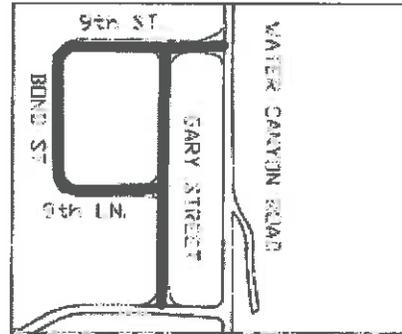

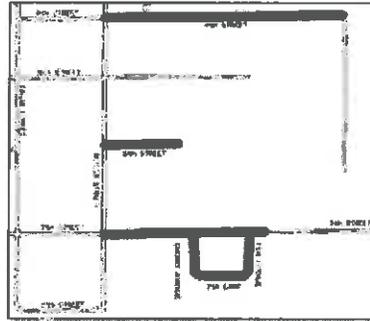

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Materials	\$29,000		\$29,000						
Labor	\$3,750		\$3,750						
Funding Sources									
HURF									
30-60-370	\$29,000		\$29,000						
30-60-101-126	\$3,750		\$3,750						

Brief explanation of how the estimate was created: Past cost of materials and labor.

Chip Seal Cherry St.

Project Description:

Single chip seal Cherry, Elm, 7th Ln., Gary, Bond, 9th Ln., 9th St., E. 4th St., E. 6th St., Poverty Flat, Alta Vista, and 6th Ave. (E. Alta Vista to Alta Vista)

Estimate

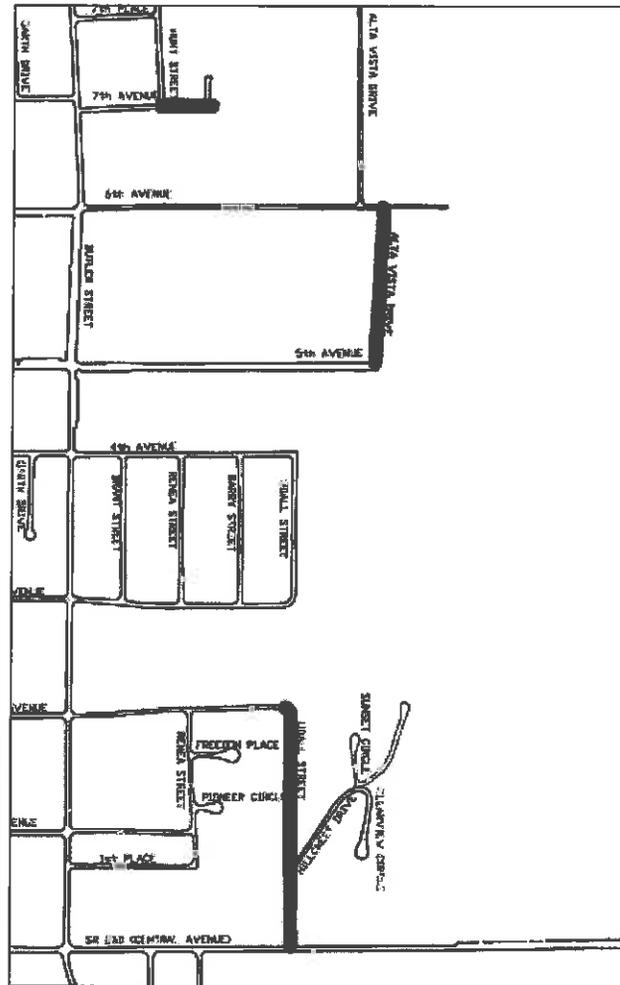

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Materials	46,000		46,000						
Labor	7,500		7,500						
Funding Sources									
HURF									
30-60-370	46,000		46,000						
30-60-101-126	7,500		7,500						

Brief explanation of how the estimate was created: Past cost of materials and labor.

Major Rehab of portions of 7th Ave., Alta Vista, and Udall

Project Description:

Major rehabilitation of 7th Ave., Hunt to end, Alta Vista, 5th Ave., to 6th Ave., and Udall, 2nd Ave., to Central

DRAFT

Estimate

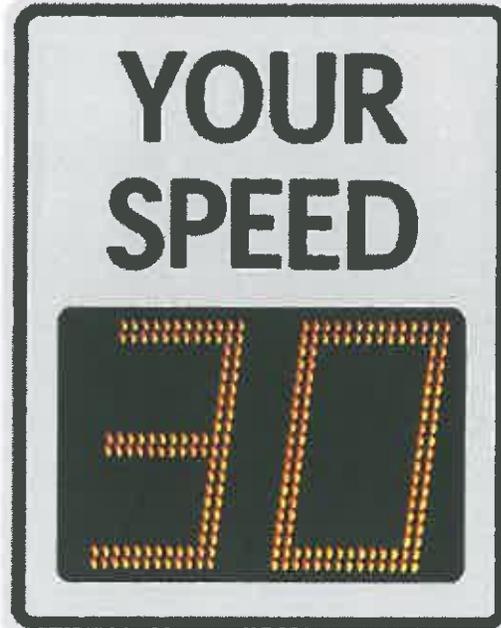

Expenses	Project Total	2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Contractor	132,000		132,000						
Funding Sources									
30-60-570	132,000		132,000						

Brief explanation of how the estimate was created: Past cost of materials and labor.

Speed Reduction Safety Signs

Project Description:

Install two speed reduction safety signs. The project will be phased in with one new location per year at N. Main St., Brown St, Butler St., South River Rd., and E. Central.

DRA

Udall Street Waterline Central to 2nd Avenue

Project Description:

Replace 1200 feet of water line on North Udall Street.

The 1200 foot area between 2nd Ave. and East Central including some of Hillcrest Dr. water mains need to be upgraded to improve the 2 and 4 inch lines. This area has seen complaints from the Fire Department on fire flows and volume problems.

Davy / Loe Slade Improvement

Project Description:

Replace 1000 feet of sewer line on West Central Avenue. This 6 inch Clay line runs behind lots on private property and needs to be moved to the Town right-of-way. The newer system on Burk Street is stubbed out for this purpose.

This existing sewer line takes in the entire area to the southwest, including the 2nd Street Hidden Valley Subdivision. This old line has blockages requiring routine maintenance and needs to be completed before this smaller clay line fails.

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. This work was estimated using standard construction guidelines and planning by Public Works.

12th Street Tank Rehab

Project Description:

Water storage tanks rehabilitation, cleaning and repair.

The idea of this will be to improve the condition of the older storage tanks for the lower water system. The 1,000,000 gallon tank (1983 construction) has had an inspection and is in need of painting inside and out. The original two smaller 165,000 gallon tanks (1960 vintage used sawmill tanks) also are in need of sand blasting, painting and installing access doors on the outside of tanks.

Brief explanation of how the estimate was created:

East 6th Street Sewer Line Butler East

Project Description:

Replace 500 feet of sewer lines on East 6th Street.

This is 500 feet of new 8inch PVC run between Butler St. and 290 E. 6th St. with this new line we will be able to eliminate about three sewer services that go out in the rear of the lots and go North through private property and through Mountain Meadows Trailer Park. This line is stubbed out for with new manhole on Butler St. There is now a 4 inch main line with problems.
Note: There will be a need for a few customers to run service lines from behind homes to the front on 6th St.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years

Materials	\$6,700				\$6,700				
Labor	\$7,440				\$7,440				
Funding Sources									
Sewer									
50-82-570	\$2,000				\$2,000				
50-82-345	\$6,700				\$6,700				
50-82-101-126	\$7,440				\$7,440				

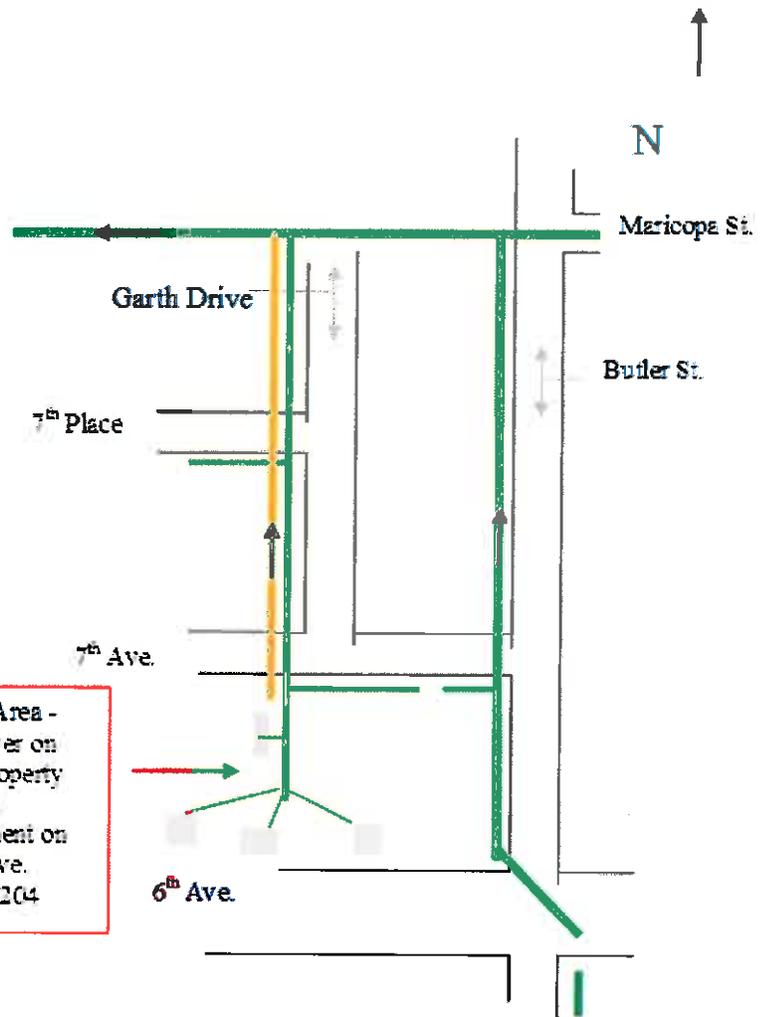

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. This project was figured using standard construction techniques and used field measurements to determine size of job.

North Garth Drive Sewer Line 7th Avenue to Maricopa Street

Project Description:

Replace 700 feet of sewer line on North Garth Drive.

This job is between 7th Ave. and 7th Pl. to 8th Ave. and will replace 700 feet of 6 inch clay pipe with 8 inch PVC. This will run on North Garth St. and tie-into the newer 10 inch interceptor line from Maricopa St. This will eliminate a root filled and problem line and will be the last of this type of clay line in the area.

Problem Area -
Town sewer on
private property
will do an
improvement on
East 6th Ave.
See SW-1204

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$2,800				\$2,800				
Materials	\$10,000				\$10,000

50-82-345	\$10,000				\$10,000				
50-82-101-126	\$7,440				\$7,440				

Brief explanation of how the estimate was created: In-house estimate based on needed materials, required engineering and labor. The design on this job is standard construction methods and parts figured using planning model with average parts costs.

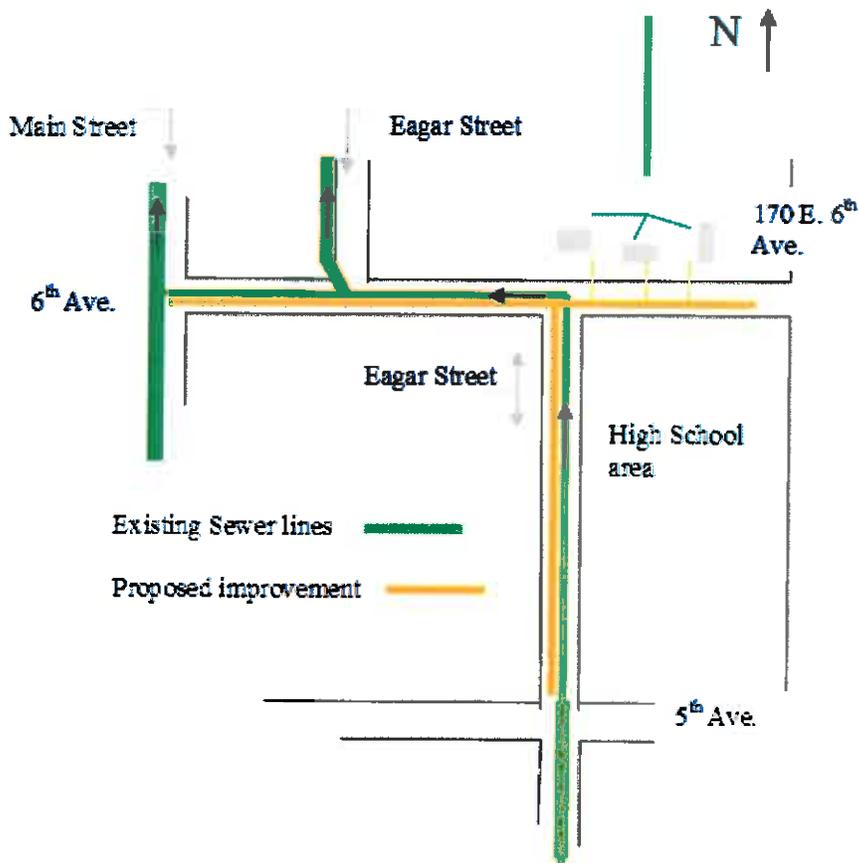

North Eagar Street and 6th Avenue Sewer Line

Project Description:

Replace 1800 feet of sewer line on East 6th Avenue and North Eagar Street.

This is the last 1200 foot section of 6 inch clay sewer pipe on North Eagar St. it has a blind corner on 6th Ave. it takes the flows from all of Eagar Streets newer 8 inch lines. This existing line is in the roadway and might need to be dug in place with line sewage transfer, and will be costly to put road back.

Will be running between 5th Ave and 6th Ave. and Main St. to 170 East 6th Ave. this project will consist of 1800 feet of 8 inch PVC pipe and 4 new manholes.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$7,200				\$7,200				
Materials	\$24,000				\$24,000

50-82-570	\$7,200				\$7,200				
50-82-345	\$24,000				\$24,000				
50-82-101-126	\$18,600				\$18,600				

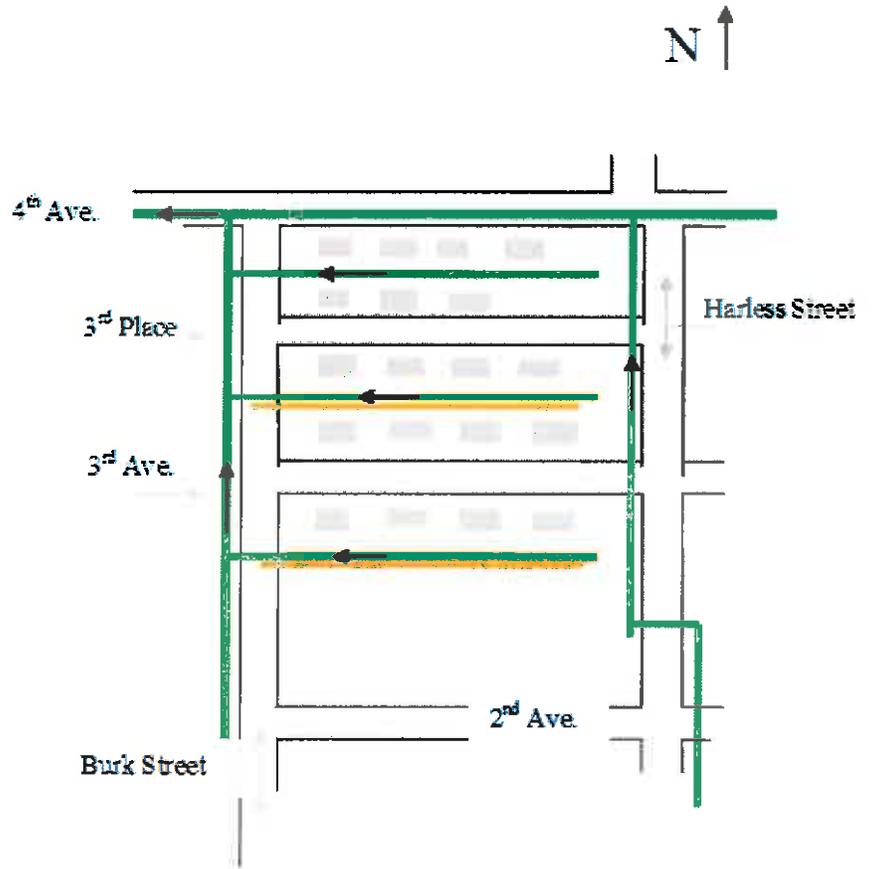

Brief explanation of how the estimate was created: In-house estimate based on needed materials, required engineering and labor. This project uses standard construction methods and an estimate of system parts is taken from planning model drawing.

3rd Avenue and 3rd Place Alleyways Sewer Lines

Project Description:

Replace 1000 feet of sewer line in the 3rd Ave. and 3rd Pl. alleyways.

The two alleyways between Harless and Burk have older lateral lines that have some problems, the 3rd Pl. line is a shallower 6 inch clay line that has had repairs done and needs flushed regularly, and a newer deeper line on Burk St. will let a new line have more fall and better service connections. The 3rd Ave. line is an 8 inch PVC line also shallower with some problem service connections and no manhole access. This line can also be lowered and connections improved.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years

50-82-570	\$4,000				\$4,000				
50-82-345	\$8,400				\$8,400				
50-82-101-126	\$9,300				\$9,300				

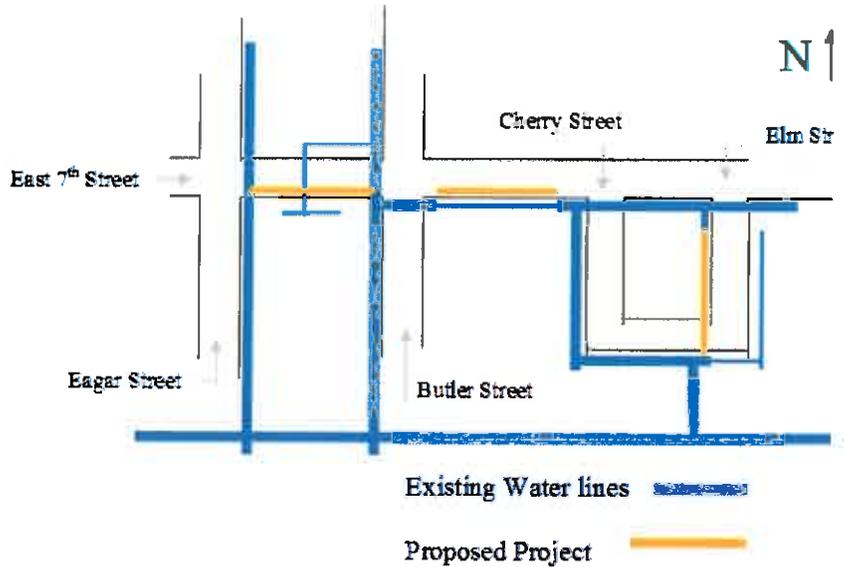

Brief explanation of how the estimate was created: In-house estimate based on needed materials, required engineering and labor. Standard construction methods used for this and parts needs taken from planning models, and average parts pricing.

East 7th St. and Elm Waterline Loop

Project Description:

Replace 1600 feet of water line on East 7th Street and Elm Street.

Will be running 1200 feet of new 8 inch PVC to replace existing 2 inch PVC lines in the area between Eagar St. and Cherry St. (an area of past unfinished improvements) while in this area, 400 feet of 8 inch pipe can also be run on Elm St. to complete this areas improvements. This can be done in sections and needed.

Brief explanation of how the estimate was created:

East 1st Avenue Improvement

Project Description:

Replace 800 feet of sewer line on East 1st Avenue Fire house line. This 800 foot area between Butler and Renae is now served by a 4 inch PVC line with very little or no fall. Due to long-term maintenance problems, this area was stubbed out with a new manhole on Butler.

In the future this line will be able to take in most of this corner between Central, 1st Avenue and Udall Street.

DRAFT

Estimate

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$3,200					\$3,200			
Materials	\$9,100					\$9,100

50-82-345	\$9,100					\$9,100			
50-82-101-126	\$5,580					\$5,580			

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and Labor. Parts information was gathered from planning models of this project, using standard construction methods and estimated cost information.

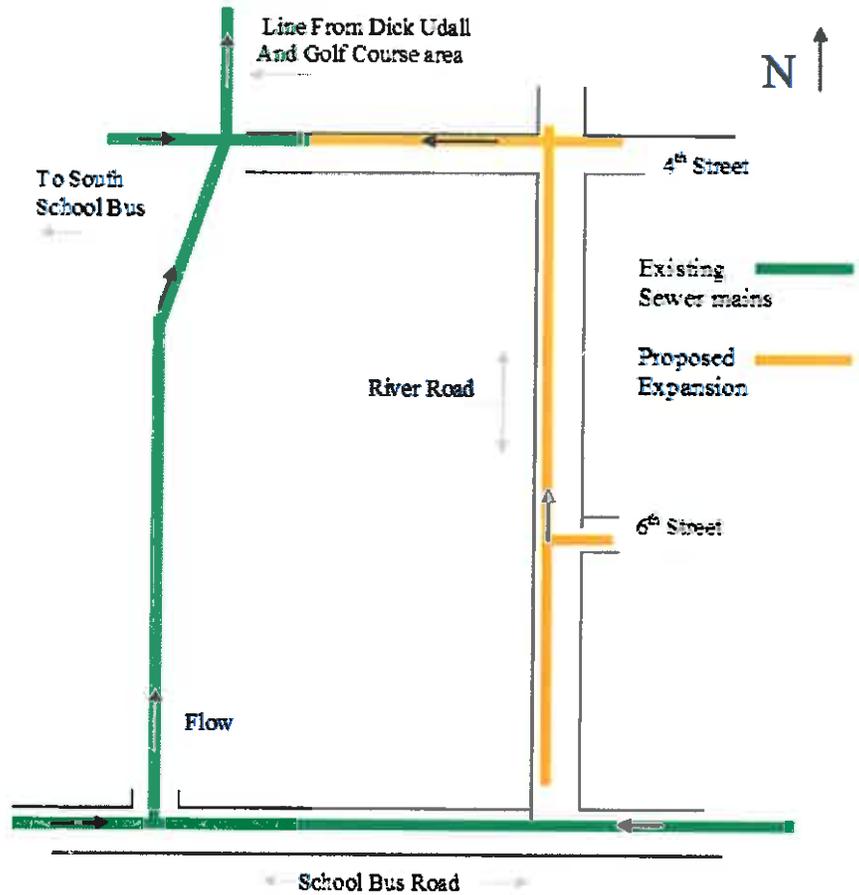

River Road and 4th Street Sewer Line

Project Description:

Expand sewer system 5000 feet on West 4th Street and South River Road.

There have been many requests for sewer service information in this River Road area. In the future this line will be used. This expansion will be a 5000 foot area between 1120 W. 4th St. east to intersection of River Road and 4th St. and south to approximately 777 South River Road. In the future this proposed line will be able to take in some of the area north of 4th street on River Road, east of River Road on 6th St. east of River Road on 4th St. and other areas not yet requested.

DRA

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$20,000					\$20,000			
Materials	\$46,000					\$46,000			
Labor	\$18,600					\$18,600			
Funding Sources

50-82-570	\$20,000					\$20,000			
50-82-345	\$46,000					\$46,000			
50-82-101-126	\$18,600					\$18,600			

Brief explanation of how the estimate was created: In-house estimate based on needed materials, required engineering and labor. This project is figured using standard construction methods.

South Burk Street Improvement

Project Description:

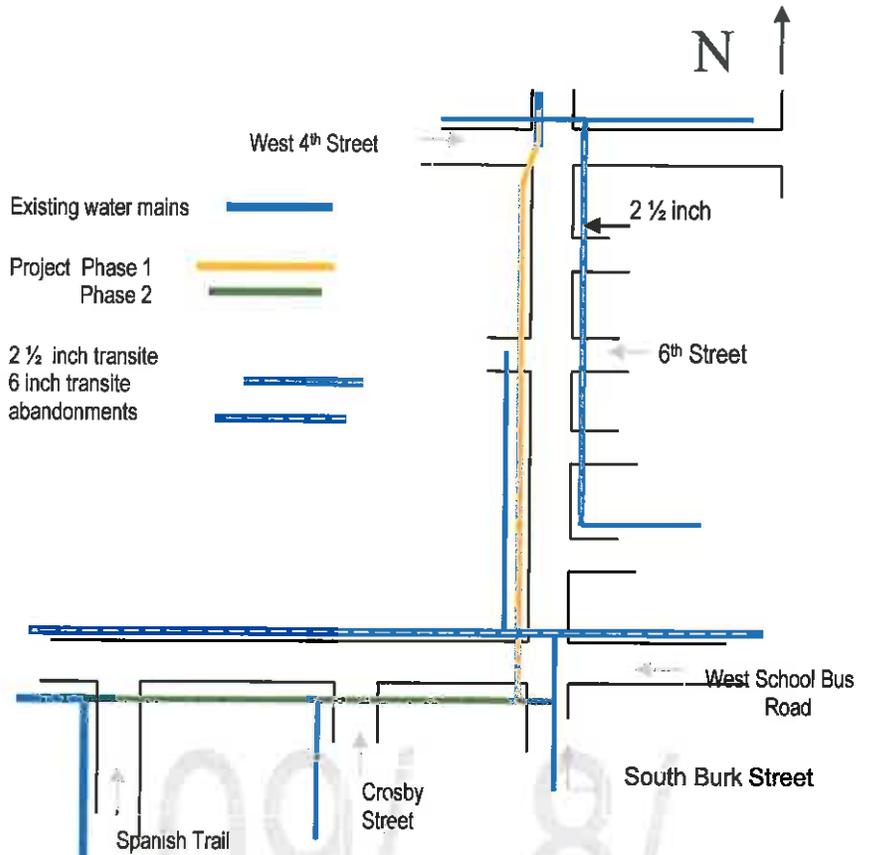

Replace 4350 feet of water line on S. Burk and W. School Bus Road.

Phase 1

This is the upper S. Burk Street job (the lower S. Burk Street job was done as a part of the W. Central work). This project will be the 3000 feet between 4th Street and School Bus Road to replace about 2400 feet of 2½ inch transite line and about 1500 feet of 6 inch PVC-transite line feed problems.

Phase 2

This project will include the 1350 feet extension of the 12 inch supply line coming from Spanish Trail. Fire hydrants will now be available in these areas.

Estimate

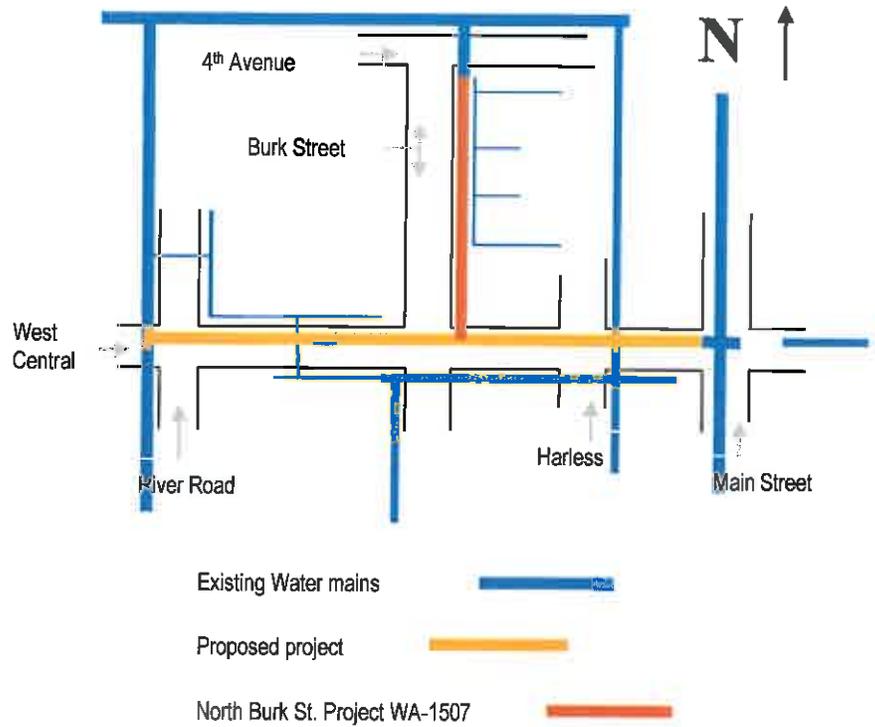

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$16,900					\$16,900

50-81-345	\$57,000						\$57,000		
50-81-101-126	\$32,500						\$32,500		

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor.

West Central Avenue Improvement

Project Description:

Replace 4000 feet of 8 inch PVC to be run on the north side of Central Avenue between in the middle of the intersection of Main Street and Central, west to River Road. This line will replace a ¾ galvanized system and a short section of 4 inch PVC fed by that ¾ line, and a 2 inch transite line. This would also tie in improvements to the north, provide for needed fire hydrants and supply any future commercial development on Central.

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor.

East 2nd Ave. Waterline Main to Eagar

Project Description:

Line to tie-in existing newer water lines on East 2nd Avenue.

This line is a part of Main Street Improvement work, a line is stubbed out to the East from Main St. this 600 feet of 8 inch line will tie-in to the 8 inch on Eagar St. There is no line there now on 2nd Ave. and not much call for one at this time, LDS parking lot and ball field on the South and undeveloped private property to the North.

DRA

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$2,400						\$2,400		
Materials	\$6,300						\$6,300		
Labor	\$4,700						\$4,700		
Funding Sources									
Water									
50-81-570	\$2,400						\$2,400		
50-81-345	\$6,300						\$6,300		
50-81-101-126	\$4,700						\$4,700		

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. Current parts pricing for this size and type of job, no parts quote was requested.

School Bus Road Improvement and Expansion

Project Description:

Replace and expand 4,700 feet of water line on South School Bus Road and West 4th Street.

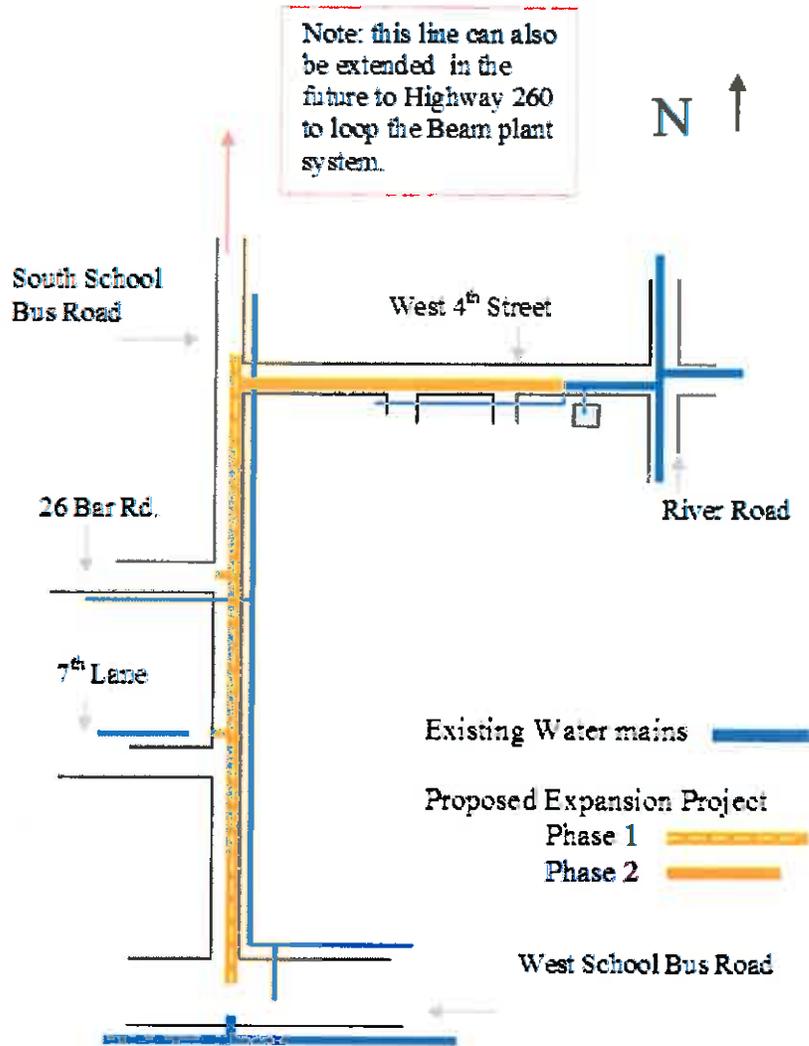

This project can be done in two phases so the projects on the west side like the 26 Bar line WA-1601 can be done.

Phase 1

Would be between the School Bus Rd. and Safari intersection going north for 2500 feet to 4th St. this new 8 inch line would replace an existing 4 inch PVC dead-end line and give more volume and fire hydrants to this area.

Phase 2

Would be between the Nicoll Well (675 W. 4th St.) and go 4650 feet west to the intersection of 4th St. and School Bus Rd. This new 10 inch will replace 2250 feet of existing 4 inch PVC and for the first tie West 4th St. to School Bus Rd

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$18,800						\$18,800

Brief explanation of how the estimate was created:

South Main Street Improvement

Project Description:

Replace 2800 feet of sewer line on S. Main between 4th Street and School Bus Road. This will replace 6 inch clay pipe with deeper 10 inch PVC line that connects to a newer 12 inch system.

This older clay pipe system has many root problems and takes regular maintenance to keep clear. The new location might need to be out in the road due to conflicts with the existing 6 inch water main. This may add to project costs and the road surface is not included in this estimate.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$10,500							\$10,500	
Materials	\$45,500							\$45,500	
Labor	\$24,000							\$24,000	
Funding Sources

50-82-345	\$41,000							\$41,000	
50-82-101-126	\$24,000							\$24,000	

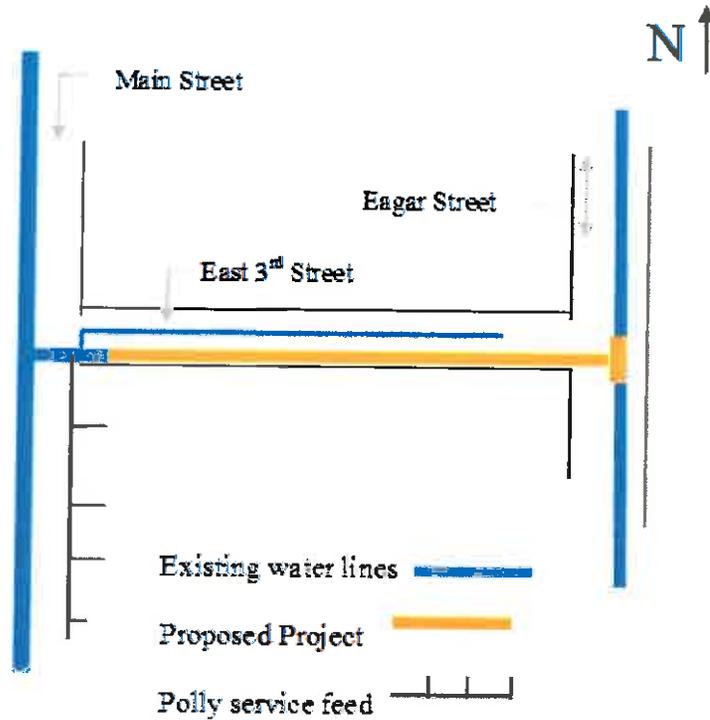

Brief explanation of how the estimate was created: In-house estimate based on needed materials, required engineering and labor. This project was calculated using standard construction techniques and information taken from a planning model done for this job, no parts price quote was requested. This is an estimate only.

East 3rd St. Waterline Main to Eagar St.

Project Description:

Replace 600 feet of water line on East 3rd Street.

Replace existing 2 ½ inch Transite dead end water line from old system with 600 feet of 8 inch PVC between Main St. and Eagar St. The line is stubbed out on the newer Main St. improvement and needs to be tied on to the 8 inch PVC on Eagar St. cutting in an 8 inch tee and valve. This work also includes a 1 inch Poly water service feed line jumper that needs connected to new system.

Labor	\$7,440							\$7,440	
Funding Sources									
Water									
50-81-570	\$2,400							\$2,400	
50-81-345	\$7,800							\$7,800	
50-81-101-126	\$7,440							\$7,440	

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. Parts cost is based on planning model done for this job, and figured on average parts pricing.

**East 8th St. Waterline
Butler St. to Eagar St.**

Project Description:

Replace 600 feet of water line on East 8th Street.

The last section of line not improved in this area is the 2 inch dead-end line on 8th St. between Butler St. and Eagar St. In the future this upper part of the system can be looped by running a 8 inch PVC line between these main lines and make a better grid system with better volume for this area.

AT 28 16

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$2,400							\$2,400

50-81-345	\$7,800							\$7,800	
50-81-101-126	\$5,580							\$5,580	

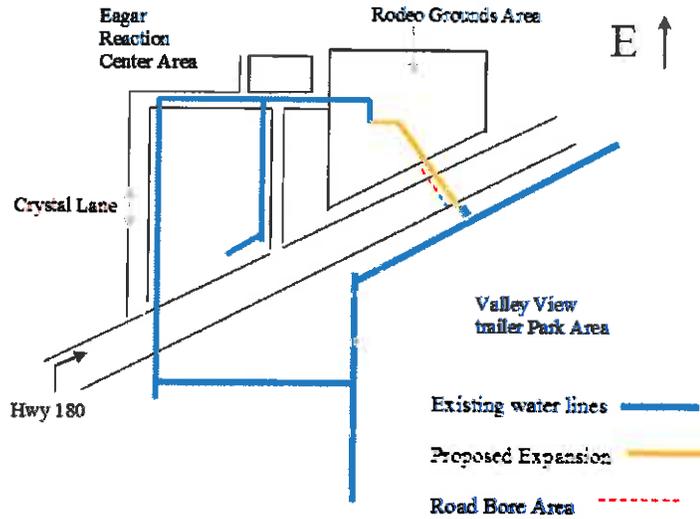

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. This one block of new 8 inch line will require the standard parts for this lateral line.

Highway 180 Bore and Rodeo Grounds Waterline Loop

Project Description:

Extend 1600 feet of water line to loop highway 180 system.

The 6 inch water main that feeds the far east side of town (Rec Center and County Yard) dead ends at the Rodeo grounds fire hydrant. A new water line was installed in 2006 on the west side of highway 180, a tee and valve were put in (by the Apache St. intersection) for a future road bore and 1600 foot main line loop to improve water quality in that part of town.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Engineering	\$6,400							\$6,400

Labor	\$7,400							\$7,400	
Road Bore	\$6,000							\$6,000	
Funding Sources									
Water									
50-81-570	\$6,400							\$6,400	
50-81-345	\$22,200							\$22,200	
50-81-101-126	\$7,400							\$7,400	

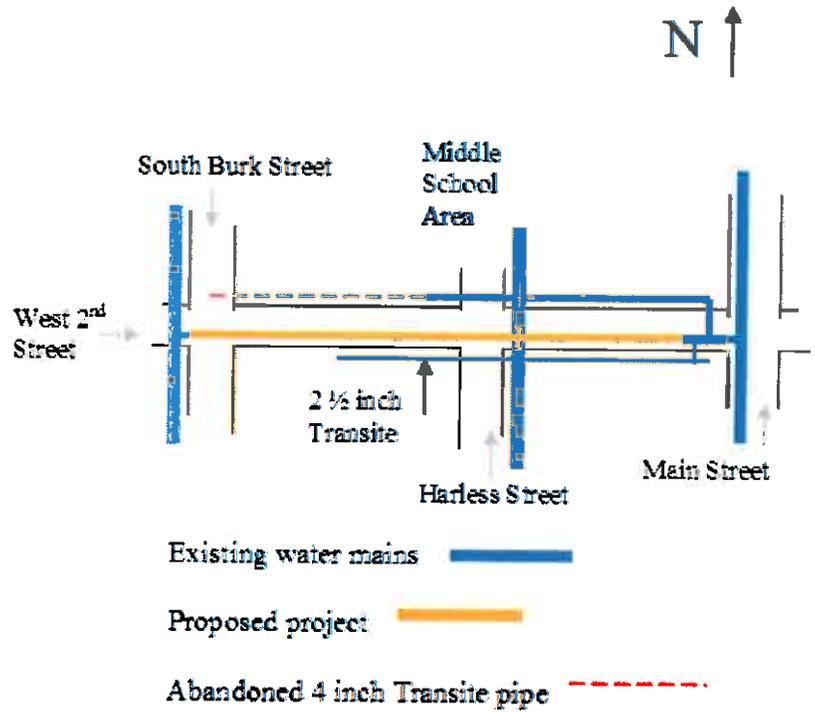

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. The cost of a \$6,000 road bore is added to this estimate under materials.

West 2nd St. Waterline Burk to Main

Project Description:

Replace 1200 feet of water line on West 2nd Street.

Replace 600 feet of 2 ½ inch Transite pipe, and 500 feet of 4 inch Transite pipe between Main St. and Burk St. These two blocks of 1200 feet of new 8 inch PVC are stubbed out for on Main St. and Burk St. This work will not require any new fire hydrants.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years

50-81-345	\$11,600							\$11,600	
50-81-101-126	\$9,300							\$9,300	

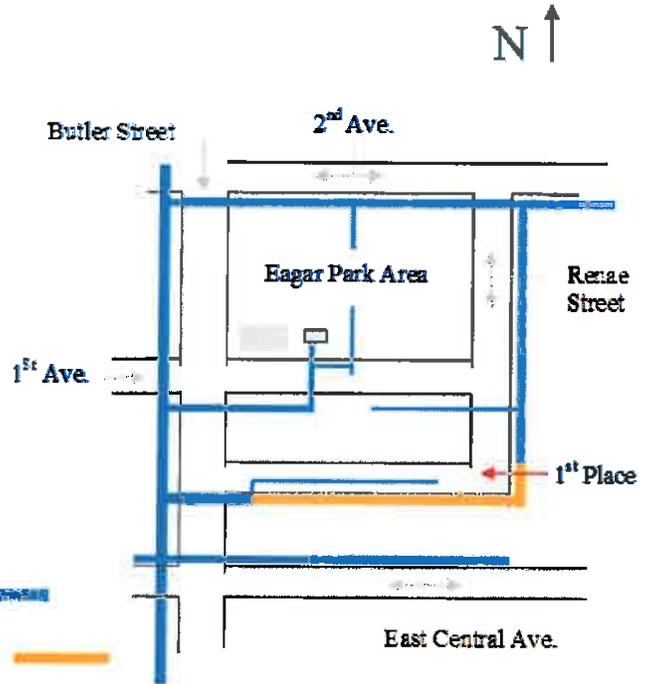

Brief explanation of how the estimate was created:

East 1st Place Waterline Butler to Renae

Project Description:

Replace 600 feet of water line on East 1st Place.

This will be a 6 inch PVC line running between a stub-out on Butler St. going east for 600 feet to tie-in to the existing 6 inch system on Renae St. this would eliminate a dead-end 2 inch PVC line on 1st Ln. and loop the dead-end 6 inch water main on Renae St. This project will also let us put a fire hydrant in the 1st Ln. and Renae St. area.

DR F

Estimate

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. Current parts pricing for this type of job, estimate taken from planning model.

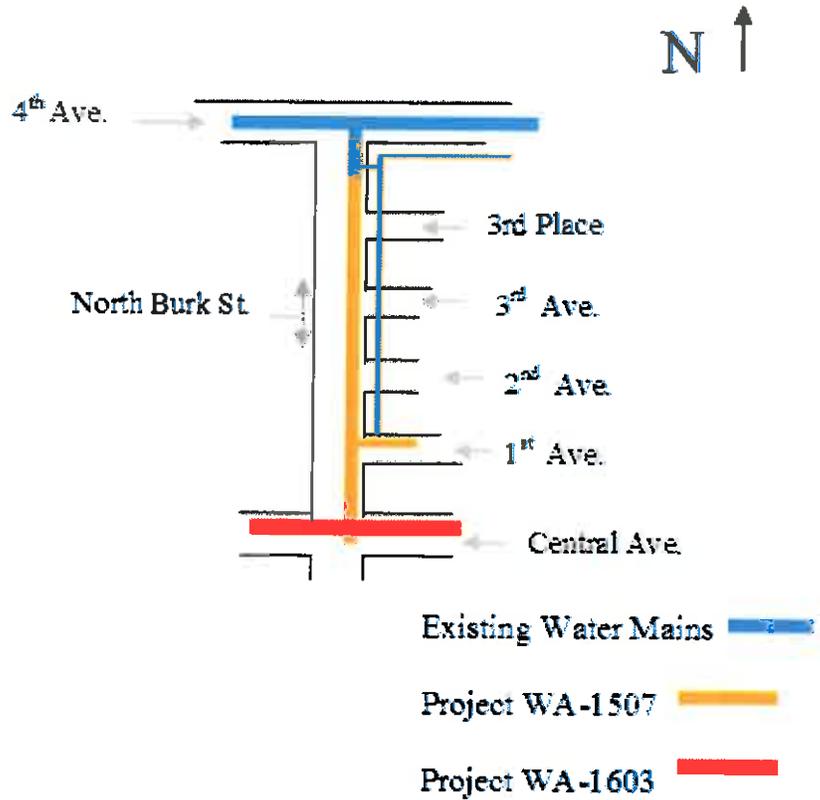

North Burk St. Waterline 4th Ave. to Central

Project Description:

Replace 2400 feet of water line on North Burk Street.

This work is 2400 feet of new 8 inch PVC pipe between 4th Ave. and Central Ave. When completed this line will tie-in to a newer system on the north side of West Central (not done at this time, Project #WA-1603) the N. Burk St. job will replace a 2 and 4 inch dead-end system and will loop this new line with the Harless and Main St. systems. This work will also provide more volume and fire hydrants to this area.

DRA

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years

Brief explanation of how the estimate was created: In-house estimate based on needed materials, engineering and labor. Planning model for parts needs made of project, and figured by average parts pricing.

West 26 Bar Rd. Waterline School Bus to Genevieve

Project Description:

Replace 2700 feet of water line on 26 Bar Road.

This new 8 inch line would run 2700 feet between School Bus Rd. and Genevieve Dr. When a larger line is put on School Bus Rd. to replace the existing 4 inch (Project #WA-1604 Phase 1) there will be adequate water supply for this 26 Bar Rd. line improvement. This new system will replace the existing 2 inch dead-end line, and provide for fire hydrants and more volume.

Beyond 10 years

Springline Replacement

Project Description:

Replace old water pipes coming from town spring.

The original water supply for the Town is the Coon Springs system and it still supplies the upper system in the west part of town. There is about 4 miles of 2 ½ inch buried and exposed galvanized and Transite pipe, there are 3 collection fields and basins. This system has many repair areas.

No drawing of Springline at this time.

RA

09/ 8 16

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years
Contractor	\$310,000								\$310,000
Funding Sources									
Water									
50-81-570	\$310,000								\$310,000

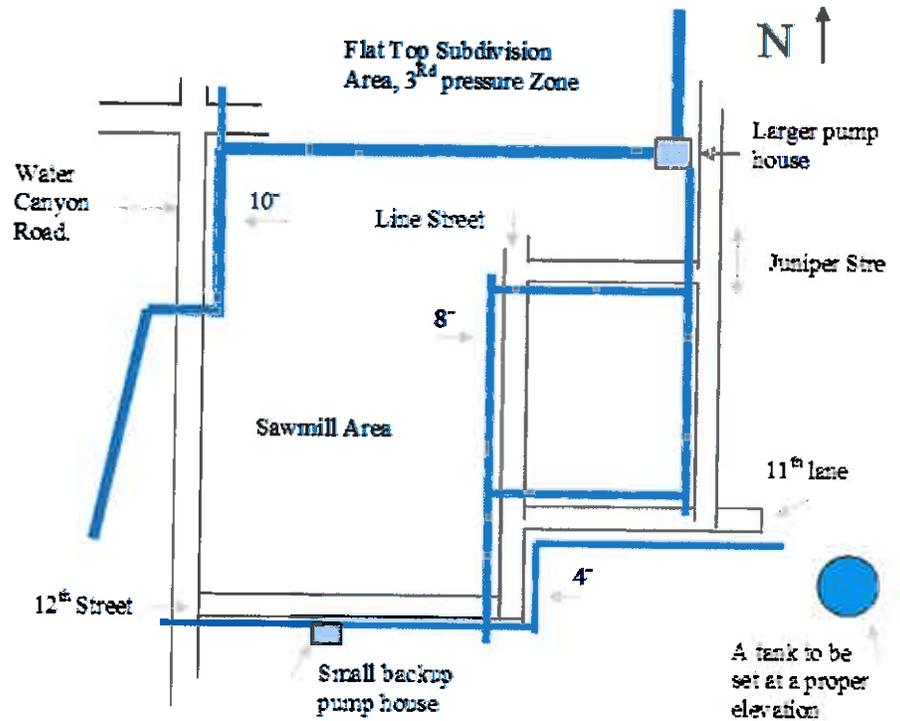

Brief explanation of how the estimate was created: In-house estimate.

Juniper Storage Tank

Project Description:

New water storage tank for the 3rd pressure zone.

The Juniper St. area (Flattop Subdivision) was developed as a third pressure zone being too high to be served by the lower water system. A storage tank was planned at one time to go along with a pump system. A tank has not been installed at this time, this third pressure zone would be more useable if it was complete with storage. Now it is dependent on pump pressure.

Estimate

Expenses	Project Total	Prior Years	2017-18	2018-19	2019-20	2020-21	2021-22	Years 6-10	beyond 10 years

Funding Sources									
Water									
50-81-570	\$250,000								\$250,000

Brief explanation of how the estimate was created: In-house estimate.

Springline Storage Tank

Project Description:

Additional water storage tank for the upper water system.

No drawing at this time.

The upper system is fed by the Coon Springs (no wells on this system) and has a 250,000 gallon tank for storage. As the area (the upper west side) served by this system has grown, the existing tank needs to be supplemented with a pump from the lower system (Elk Crest pump station). This west side area could double in population in the future and more storage capacity will be needed.
